EXPERIENCE

UCONN STAMFORD ENGINEER MAJORS | FOUNDER

Stamford, CT | Aug 2019 – Present

- Collaborative group of students at University of Connecticut Stamford Regional Campus
- Scaled population from 14+ students to 40+ students
- Directed several teams of students, resulting in an overall reduction in stress & workload
- Lead a team of 13 collaborative students, decreasing time spent on assignments by 30% - 40% on avg.

SUMMER OF SHIPPING | CORE TEAM & FRONTEND DEVELOPER Remote Position | May 2020 – Sep 2020

- Initiative group for students with cancelled internships for Summer 2020 founded by ex-Uber engineer
- Scaled population from 20 members to 600+ students & 70+ mentors globally
- Developed prototype design in Figma software, resulting in a responsive site
- Developed a search feature with FuseJS, enabling users to search an internal JSON file of media links

UNIVERSITY OF CONNECTICUT | CS & MATHEMATICS TUTOR

Stamford, CT | Feb 2020 – May 2020

- Assisted in analyzing and debugging code with students
- Explained technical concepts and issues to students, clarifying confusion set upon student knowledge
- Created study plans based off of Computer Science & Calculus curriculum for students
